

2019-2020 Eye Camps

Over the 2019 - 2020 season, TCF will conduct 50 eye camps in West Bengal, mainly in the Greater Kolkata and 24 Parganas area but also as far out as Malda and Purulia. 29 camps have already been completed. **However, 21 camps have been postponed due to Corona Virus. TCF is planning to hold these camps during the season 2020-2021 starting in November 2020.**

In these camps eye testing is done, eyeglasses distributed and basic eye health checkups are conducted. Recommendations are made for further eye health procedures. Our dedicated medical team includes Ophthalmologists, volunteers and staff who conduct these eye camps. Over 5400 people attended the eye camps and over 4300 people received eyeglasses. Medicines for eye treatment were distributed and patients with cataract referred for surgery to designated hospitals.

Additionally, for the first time TCF is distributing blankets to people in these eye camps as well.

2018-2019 Eye Camps

2018-2019 Eye Camps Between November 2018 and April 2019, TCF has funded 37 Eye Camps — from South 24 Parganas to Malda, (300 km away from Kolkata). Over 5,100 patients received free eyeglasses — a record breaker for TCF — and many were referred to local hospitals for cataract treatment.

TCF takes this opportunity to thank the donors for their generous donations and volunteers who dedicate themselves to organize these eye camps.

If you want to sponsor an eye camp, please contact Mr. Tapan & Mrs. Panna Mazumder at 416-466-0126 or email them at mazumder_tapan@hotmail.com.
